## Report of Selectmen.

---

The Selectmen respectfully present the following report, which we hope will meet with your approbation.

No doubt it will be noticed that the appropriation for breaking out roads was overdrawn, which circumstance does not embarrass us when we consider our expense in making the roads passable was not as great as that of many of our neighboring towns. However, the appropriation was all your board asked for.

The highways of the town are in fair condition, considering the heavy rains which we have had, which caused much damage and necessitated an outlay which otherwise might have been expended where it would have shown more to the credit of our road surveyors.

Being prompted by the saying, "Whatever is worth doing at all is worth doing well," our expenditures upon culverts we think have been judiciously spent, as we found many culverts which were practically of no use, being very small, therefore needing attention nearly every year.

The bridges of our town are many and some were found to need much outlay, as in the case of the Merrick bridge, so-called, in the vicinity of the Wire Mill, which was found to be in a dangerous condition; therefore it went through with a thorough overhauling and is practically a new bridge. By a decision of the County Commissioners our town gets rid of two bridges between Palmer and Brimfield, which will save the town any further expense as far as Farrel and Fenton bridges are concerned. The Dutton and Blanchardville bridges with new piers should stand for years without expense to the town, excepting for an occasional coat of paint and planking. Considering the present condition of the bridges, we would recommend an appropriation for repairing bridges much less than last year.

Railings were erected where most needed, but many places are

still without a sufficient guard where the town will be liable if any damage occurs. Your Selectmen would recommend an amount nothing less than what was appropriated last year for railings.

In the matter of new roads we would not favor the idea of people building out in a lot thinking the town will build a road for them, as any land owner will willingly present a building lot in some remote section to a man who will build a house and get the town to lay and build a street, thereby making many desirable building lots for the owner of land through which the road passes. We are confident, however, that the town made no mistake when they accepted and made road to Sumner Blodgett's place on Dewey's Hill, as the gravel taken while constructing the same was of much value to the road in the hollow, and much gravel is left which would be of use in filling in school yard, which your Selectmen think would be more practicable than draining same.

The town entrusted to us much responsibility, and we have endeavored to do any and all things we undertook as our best judgment prompted us; however, in the minds of many, no doubt, we have erred somewhat. Do not censure us, however, for an error in judgment, but rather speak pleasantly, if you speak at all, as "Pleasant words are as an honeycomb, sweet to the soul, and health to the bones."

## Report of the Overseers of the Poor.

---

The Overseers of Poor respectfully report the condition of the Town Farm as being good. The running expenses have been large, owing to the increase of Paupers and the sickness of some of those sent there. Some new bedding and beds had to be got; also considerable repairing done on the buildings.

The Poor House is crowded, and to accommodate more additions will have to be made. The expense for the support of poor in the town appears larger than ever before, and the reason for this is the large amount of bills that were due March 1, 1888, that were not presented for payment. Another reason is the enormous increase of paupers, which is not only in this town but throughout the state.

## Prosecuting Committee's Report.

---

Your Committee appointed for the suppression of illegal liquor selling would respectfully submit the following report :

As far as we have been able to ascertain there has been very little, if any, sales of liquor by unlicensed persons during the past year, and we think that the licensed dealers have complied with the requirements of their licenses as closely as it is possible to enforce the provisions of the license law now on the statute books.

Early in the year all the licensed places were visited by the committee for the purpose of examining their condition.

In our judgment the arrangements of some of the saloons did not in all respects meet the requirements of the law. These deficiencies were reported to the proper authority, as they related to matters over which the committee had no jurisdiction.

We also found that three of the parties to whom licenses had been granted did not have their licenses upon the premises as required by law. Upon investigation it was found that they were in the Town Clerk's office.

As some six weeks had elapsed since the licenses should have been paid for, the committee thought sufficient time had been allowed them. They accordingly procured search warrants and seized the liquors of the aforesaid parties.

In view of the above facts the committee would recommend that in the future, in cases where licenses have been granted, that the licensees be required to pay for their licenses before they are allowed to sell any intoxicating liquors.

Samples of liquors were taken from all the licensed dealers, and sent to the State Assayer, who reported as follows, the government standard being 50 degrees by volume at 60 degrees Fahrenheit :

## REPORT OF LIBRARIAN

FOR THE YEAR ENDING MARCH 1, 1889.

Number of volumes in Library, March 1, 1888,	.	3,666
Number of volumes bought during the year,	.	113
Number of volumes donated to the Library,	.	9
Total,		3,788
Number of volumes loaned to readers, in fiction,	.	6,619
Number of volumes loaned to readers, in history, travel, etc.,	.	2,600
Total,		9,219

There has been a notable increase in the number of books drawn from the Library during the past year, especially in the department of solid literature, including history, travels, scientific and miscellaneous works, which is an encouraging sign. It is also a pleasure to note that a large number of books are taken each week by readers in the villages of Thorndike and Three Rivers, and it hoped Bond's Village will soon have the same facilities for the exchange of books.

Hereafter it will be the aim of the managers of the library to buy books often, such as may be issued, which may be thought worthy of the attention of the general readers, thereby giving them the benefit of having access to new books which are attracting public attention. The Librarian will deem it a pleasure to have the patrons of the Library suggest such books as they would like added to the lists, giving the title, author and publisher of the books desired. All such lists will be carefully considered.

O. P. ALLEN, *Librarian.*

## SCHOOL COMMITTEE'S REPORT.

---

The school committee respectfully submit their annual report.

A special appropriation was made last year for new heating apparatus in the school house at Palmer Depot. Two furnaces were set there in the fall, at a cost somewhat less than the appropriation, and have worked excellently, so far as tested. The unusually mild winter has given them no severe trial, but the committee feel confident they will heat the school house with economy. They also help materially in ventilating the rooms. This is the only large item in last year's repairs.

The building in Palmer Center needs thorough renovation, but the school houses generally through the town are in so good order that the expenditures for repairs next year can be properly kept small.

The increasing number of children in some of the primary schools who cannot speak English at all is a matter that may in the future need special attention. Object lessons, some kinder-garten work, and the expenditure of an endless amount of patience have enabled the teachers of these departments to make satisfactory progress so far. The benefit of the schools to these foreign-born children is great, but they make hard work for teachers, and in some degree interfere with the other scholars. No grade of schools require a higher quality of teaching than the primary, even under the best conditions, and the fact that our teachers have done so well call for special commendation.

The committee think the teaching and scholarship through all the grades has been in the main satisfactory, and that the schools as a whole have made, and are making a steady advance.

The teaching of singing by a system, but without a special instructor, has been tried in the graded school at Three Rivers, as an experiment. The progress made and the interest aroused in the scholars have been remarkable.

No change has been thought necessary in text books except that the committee have taken advantage of the revised editions in the system of readers.

The High School will open the spring term in the new building. The room from which it moves is already sorely needed for the lower grades, and will be occupied at once, while the change into a new, commodious and well-arranged building will add to that life and vigor which already mark our High School. It is a good school, excellently well kept, the liberal policy of the town has done much to enlarge its usefulness and opportunities, and the people are to be congratulated on the scholars, the teachers and the results.

The committee append a statement of expenditures and the usual tabular statement.

Palmer, March 6, 1889.

## TOWN WARRANT.

---

COMMONWEALTH OF MASSACHUSETTS. } ss.  
HAMPDEN,

To GEORGE W. ELY, *Constable of the Town of Palmer*, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn all the inhabitants of the town of Palmer, qualified to vote in elections and town affairs to meet at the Town House in said Palmer, on Monday, the eighteenth day of March, current, at ten o'clock, a. m., to act on the following articles, viz:

ART. 1—To choose a Moderator to preside at said meeting.

ART. 2—To determine the number of Selectmen, Overseers of the Poor, Assessors, School Committee and Constables the town will elect for the ensuing year.

ART. 3—To elect all necessary town officers for the ensuing year.

ART. 4—To act on the reports of the Selectmen, School Committee and other town officers.

ART. 5—To raise and appropriate such sums of money as may be necessary to defray the expenses of the town for the ensuing year.

ART. 6—To see if the town will allow a discount on the taxes to be assessed for the ensuing year.

ART. 7—To determine the manner of collecting the taxes for the ensuing year, and state the terms and conditions of the same.

ART. 8—To determine the compensation of the Collector of Taxes for the ensuing year.

ART. 9—To see if the town will authorize its Treasurer to borrow money in anticipation of the taxes for the current year, the same to be paid from said taxes.

ART. 10—To determine the manner of repairing the highways and bridges for the ensuing year.

ART. 11—To see if the town will continue to hire the present lock-up and tramp room.

ART. 12—To vote by ballot, which shall be yes or no, in answer to the question, Shall licenses be granted for the sale of intoxicating liquors in this town?

ART. 13—To see if the town will vote to raise and appropriate money to suppress the illegal sale of intoxicating liquor.

ART. 14—To see what action the town will take with regard to choosing a Board of Health, and fixing the compensation thereof.

ART. 15—To see if the town will accept the list of jurors as revised by the Selectmen.

ART. 16—To hear reports of committees and act thereon.

ART. 17—To choose committees and give them instructions.

ART. 18—To see if the town will make an appropriation for the benefit of the Young Men's Library Association.
